Task 3:

Create the page given below using necessary html tags:

Task 3

About Google Search Engine

[Google Search Engine Link](#)

There are many other search engines which are as follows:

- Bing
- Yahoo
- DuckDuckGo
- Baidu
- Naver
- Ask.com

Even if there are lots of search engines available, I use *Google search engine* mostly.

About Google Search engine

Google Search is a search engine provided and operated by Google. Handling more than 3.5 billion searches per day, it has a 92% share of the global search engine market. It is the most-visited website in the world. Additionally, it is the most searched and used search engine in the entire world.
